It's What You Save, Not What You Earn, That Makes Success

OCKEFELLER and Carnegie became possessors of great wealth because in their youth they were masters in little savings-because they learned to spend less than they earned, and invested their savings.

Fortune is within the grasp of every American who learns the lesson of thrift. Save a part of your earnings every day and become a bond buyer. Teach thrift to your child by example. Inject the spirit of saving and thrift into every boy and we will develop a mighty civilization.

Buy a first mortgage 6% bond safeguarded under the Straus Plan for your boy and let him cash the coupons and re-invest the interest. Then note the influence it will have on his life. It will make him more manly and independent. It will stimulate him with vigor and energy to earn, save, and invest for himself. It will make him a success in life, for the solid foundation of a business career has been laid.

Protected 6% Investments

First mortgage bonds safeguarded under the Straus Plan are investments pure and simple. They do not contain one element of speculation. They are secured by improved real estate in the biggest and most prosperous cities of the United States—land and buildings that produce an income three times the amount necessary to pay the interest on the bonds, discharge a part of the mortgage every year and provide for the upkeep of the property.

These bonds are the favorite investments of thousands of people all over the United States who have invested hundreds of millions of dollars in them for 36 years without loss of a single dollar of interest or principal. They are purchased by banks, insurance companies and trustees of estates because they are absolutely safe and pay 6% as regularly as night follows day.

They can be bought in amounts of \$100, \$500 and \$1000.

It will pay you to learn more about these bonds.

Write Today for Our Book

"6% On Your Savings with Safety." It explains how the Straus Plan has protected investors who have purchased securities from us for thirty-six years without the loss of a dollar. No charge-no obligation on your part. Ask for Booklet No. M C 247
